

Application.h

```
graph BT; Applicationcpp[Application.cpp] --> Applicationh[Application.h];
```

The diagram illustrates a C++ file dependency. A box labeled 'Application.cpp' at the bottom has a blue arrow pointing upwards to a box labeled 'Application.h' at the top. The 'Application.h' box has a light gray background, while the 'Application.cpp' box has a white background. Both boxes have a black border.

Application.cpp
